

A large, diverse audience is seated in a conference hall, clapping enthusiastically. In the background, a stage features a large screen displaying a man in a green sweater speaking into a microphone. To the left of the screen, there are colorful, stylized logos. The ceiling is equipped with professional stage lighting and rigging.

Media Powerhouse

MEDIA POWERHOUSE PROVIDES INNOVATIVE AV SOLUTIONS TO THE LIVE EVENTS INDUSTRY. OUR PASSION FOR VIDEO, SOUND, STAGING, LIGHTING AND RIGGING ENABLES YOU TO COMMUNICATE WITH AND AMAZE YOUR AUDIENCE.

Media Powerhouse works with leading event production companies who serve clients in media, retail, theatre, tourism, manufacturing, government, finance and education, We have invested significantly in Video, Audio, Rigging and Lighting technology and utilise the best teams in the industry to deliver this service. Events are being brought to life by new visual technology, and 3D screens and Projection Mapping are now regularly deployed in live environments. This is supported by regular supply of projectors and screens, plasma, LED or LCD, broadcast camera systems and our own multi output High Definition widescreen graphics system. Sound has taken a significant step forward in recent years with digital control and compact line array speaker systems.

We also offer a full Scenic & Staging Service, providing a full range of stock and bespoke sets. Our own ViewLight System is a modular solution to sets, reception and exhibition counter tops and branding walls. Lightweight and re-usable, it is a visual alternative to traditional set build, is quick to install, and carries the Mayor of London's Green Procurement Award for sustainability.
